CQS & SNQ Joint Development Event – Duel in the Pool

Background

The coaches and administrators from CQSA & SNQ have worked together to deliver an event for our Region's top swimmers.

The development benefits are those that come from working and competing as a team against high level competition. The experiences are those not generally available through the club environments.

Depending on the success of this event it is hoped to hold similar events either annually or biannually with appropriate improvements made to the programs based on our ongoing learnings.

Details
